

## Workshop's Project

It's time to review the topics of this workshop by creating your own **professional presentation**. Create one paragraph where you answer the following questions:

- *What's your name?*
- *What is your profession?*
- *What company do you work for?*
- *What are your responsibilities?*

Complete this activity and share it with the community.

Let's start!

Hello,  
I'm Sebastian Reyes, and I'm a graduate assistant in physics. I am currently working and study at a university. I teach physics labs and, I tutor undergraduate students on basic physics topics.

This is a brief presentation of my professional profile, thank you for your time.
